

TALENT AGENCY

About Sai Home Planning:

SAI HOME PLANNING is built around our marketing research capabilities supporting companies considering expanding their business, not only in Tokyo but nationwide.

Our design philosophy emphasizes performance in achieving our client goals.

From selecting locations for your business/office, to deliberate application of concept, design, and execution, all working within local laws and regulations.

We specialize in design and construction of new store and office openings, with a deep understanding of financial and contractual arrangements.

Our staff of architects, interior designers, construction personnel, and support team members will always focus on quality design, budget and schedule.

Together, we will begin a journey towards not only great design but IMPACT.
